

4.4 Grievances redressal of students and employs

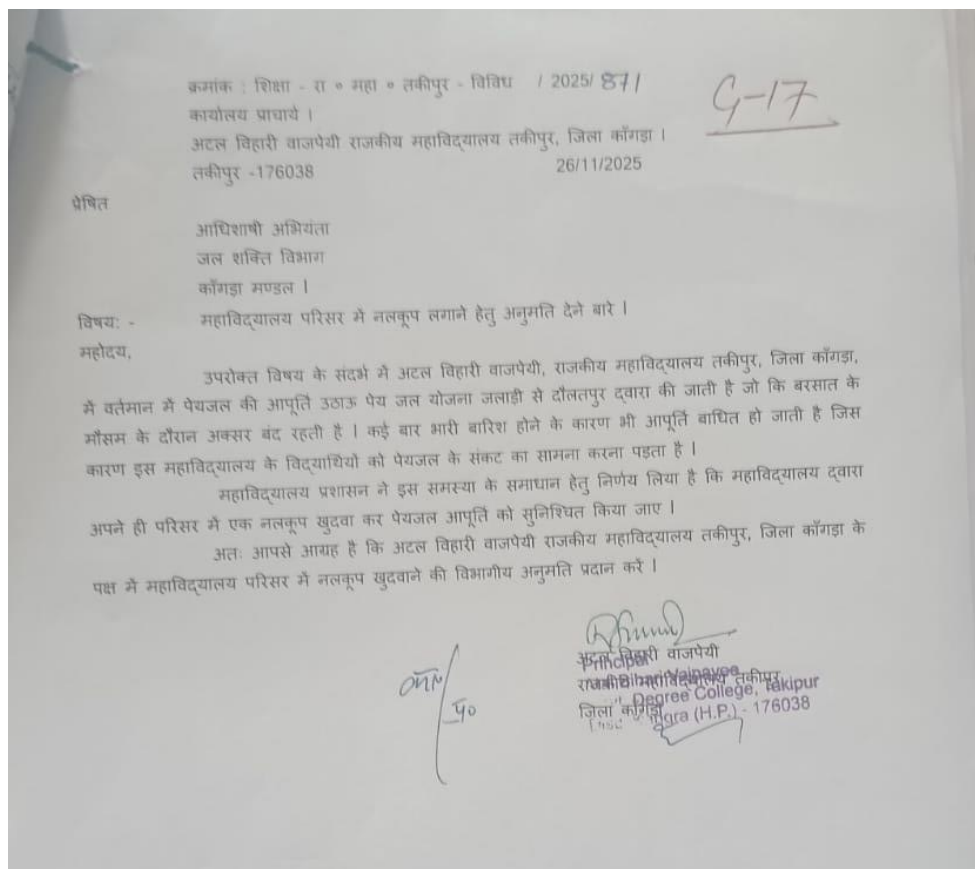

Atal Bihari Vajpayee Government Degree College, Takipur has an active grievance redressal mechanism through which the concerns of students and staff are regularly received and addressed. The institution ensures that the issues raised by stakeholders are examined carefully and appropriate steps are taken to resolve them in a timely manner.

Grievances

Students and staff raised certain concerns related to academic and infrastructural facilities. One of the major grievances was the shortage of teaching staff in some departments, which affected the smooth conduct of classes. Another concern highlighted by students and staff was the shortage of water on the college campus, particularly during certain periods of the year. Students also expressed the need for additional opportunities such as the introduction of NCC, vocational courses, and the establishment of an IGNOU study centre in the college to enhance their academic and career prospects.

Redressal / Resolution

The college administration took prompt steps to address these concerns. The issue of shortage of faculty was communicated to the Department of Higher Education. As a result, Dr. Sunil Kumar and Dr. Ajay Choudhary joined the Commerce Department, and teachers were also deputed in the departments of History and Hindi to ensure the continuity of academic activities. To resolve the problem of water shortage, the college arranged for the drilling of a hand pump within the campus, which has improved the availability of water for students and staff. In response to the demand for NCC, the college pursued the matter with the concerned authorities, and NCC was successfully introduced in the college in 2025. The institution is also making continuous efforts to introduce vocational courses and establish an IGNOU study centre in the near future for the benefit of students.
